THE DANGER BEFORE THE COUNTRY

[From the New York Times.]

We have called attention at various times to the unpleasant similarity in the state of public feeling, as regards active politics, in the communities of two great cities—Paris and New York. In both cities the so called better classes have pretty much given up any share in administration in both, "personal government" is the favorite form—successful adventurers ruling ignorant masses with little responsibility to either the people or legislative bodies in both, 'jobs' and political corruption have reached a height and audacity never before witnessed in modern history. Mr Sweeny and Mr Tweed, in New York are emulating Baron Haussmann in Paris in supporting the *proletaires* and lining the pockets of the ring by opening streets laying out boulevards, and "improving parks. In each city the classes who pay the taxes and represent the brains of the community, are practically shut out from all control of its affairs. In each also, the moral sense of the young and ignorant is becoming corrupted by the sight of so much successful villainy. The vast fortunes and immense power of the leaders of the ring will act gradually on the moral ideas of our community as did the gambling success of Morny, and the other followers of Louis Napoleon, on the morality of the present generation of young Frenchmen. Fortunately for the influence of French corruption and immorality on the world, a great disaster has shown the hollowness and wickedness of the entire French system. The prick of the Prussian bayonet has burst this bubble of foul gas. But to the American world, the gilded structure of New York corruption and rascality is still as splendid and imposing as ever. No bolt from the judgment that threatens has yet exposed its thorough rottenness and villainy. Still fortunately for America as compared with France, New York has never assumed anything like the position of Paris toward the rest of the country—especially in the political field. Its jobbery and corruption have been confined to its own limits or to the State of which it is the commercial emporium.

It is true that, owing to its enormous commercial wealth, the city offers to audacious and unscrupulous gamblers and adventurers, prizes such as Paris hardly presented to Morny Haussmann, and Persigny. As our able Albany correspondent has shown they are adding to the funds which they will control during the coming year, some $12 000 000 and for no dollar of this will they give an account. Now what we desire our friends in Connecticut and other States to understand is, that the grand object of the New York conspirators is to extend their influence and control over other States and finally to place their supple tool and instrument in the Presidential chair at Washington. Let no easy going Republican in distant States say that this is a remote and unlikely occurrence. We in New York know these men. They are no contemptible adversaries. Though they have worked up from the dregs of society, their plans are as wide reaching as their means are audacious. They have the trickery of politics by heart, they control an income in this city equal to that of many a kingdom, and they carry with them an enormous crowd of ignorant followers, who obey utterly their beck and nod. They are striking now for higher game than the Governorship of a State, or the Commissions of a city. They have succeeded in throwing all the administration of this city, employing so many thousand men, entirely into their own hands. During the present electoral contest in neighboring States, and the approaching Presidential struggle they will have in their power millions of money and will use it without stint. They are employing it to-day liberally in Connecticut.

The aim and hope of the New York Ring are to transfer their power to Washington under Gov Hoffman and to make their jobs and conspiracies national. Mr Hoffman will be their emplement there, as he has been here. The same unscrupulous audacity and unbounded bribery which have given them power here, they hope will insure them higher rewards there. In the place of the petty income of a city, they will have the revenue of a wealthy nation to job with. Where they plunder thousands now they hope to deal with millions then. Custom houses, foreign Ministers, and all the countless places of the Central Government, they will give out instead of petty offices in parks and docks and Court Houses. We shall then see a "Washington Ring" under Tweed, Sweeny & Co, to which all New York or Paris Rings have been tinies, and corruption, bribery jobbery the vitiation of justice and degradation of law, which have disgraced New York under these men will become national and 'Republican.'

Important Exploration

From a recent letter from Washington to the San Francisco *Bulletin* we take the following

Lieut George M. Wheeler, of the Engineer Corps, has received his orders from the War Department to proceed at once to explore a large section of country lying south of the Central Pacific Railroad and embracing portions of Nevada and Arizona. This territory has never been surveyed or scientifically explored, and as it is believed to be very rich in minerals the report of the expedition will be looked for with much interest.

General Schofield, commanding the Military Division of the Pacific, has been directed to furnish a suitable escort for the expedition. The Commissary General is ordered to furnish rations and anti scorbutics for the party, the Surgeon General one medical officer and two hospital stewards and the Chief of Ordinance horse equipments, arms and ammunition. The party will probably be in the field about eight months.

In connection with this subject it may interest the friends of Samuel Adams to learn that a bill has been introduced by Palmer, of Iowa, appropriating $20 000 to pay him for his voluntary exploration of the Colorado river in the year 1868 9.

Ex Senator Howard

This noted man who died at his home in Michigan on the 2d inst originated many of the measures of the Republican party, the most prominent and important of which is the present Fourteenth Amendment to the Constitution. We find in an Eastern paper this sketch of the deceased ex Senator

Ex Senator Jacob M. Howard was born at Shaftsbury Vermont July 10 1805 graduated at William's College Massachusetts studied law in Massachusetts and commenced his practice in Michigan was a member of the State Legislature of Michigan in 1838, published a translation from the French of the secret memoirs of the Empress Josephine in 1847, drew up the platform of the first convention ever held of the Republican party in 1854, and christened that party was elected Attorney General of Michigan in 1854, 1856, and 1858 serving in all six years was a representative in the Twenty seventh Congress, was elected to the United States Senate as a Republican to fill the vacancy caused by the decease of B S Bingham and took his seat January 17, 1862, and was re-elected in 1866 and his term expired on the 4th ultimo. His name will always be identified with the Fourteenth Constitutional Amendment.

The absconding State Treasurer of Nevada is a defaulter to the amount of $166,000. The *Enterprise* says $80 000 or $90,000 can be collected from the bondsmen

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO APRIL 18.

EUROPE

The Civil War in France.

LONDON April 18—A *Daily News* special from Paris says the Commune has thirty eight millions cash paid by banks for unsold bonds of the city of Paris.

VERSAILLES, April 18—The Prussians agree to stop provisioning by St Denis.

The Insurgents occupy the greater part of Paris des Colombes beyond Asnieres.

Bismarck admits the right of McMahon to occupy neutral ground.

NEW YORK, April 18—A cable special from PARIS, noon 17th, says at 2 o'clock last night two forts and advanced posts sent into the Commune the result of the vote of the troops. The urn containing the papers was carried by an officer escorted by Nationals, and the procession was headed by a red flag. There were cries of "Vive la Commune."

The report that the city is about to be invested by Versaillists and Prussians jointly, causes great excitement.

Barricades on Rue de Castiglione have been demolished. Also the large works erected at Batignolles, Bellevue and Montmartre.

The church of St Jacques is surrounded to day by Nationals and the clergy arrested. Yesterday the church of St Vincent de Paul was surrounded by Nationals and pillaged. Scarcely a church is open now.

A dispatch from Boulogne says the communal elections in Paris were a perfect fiasco. Not one-tenth of the voters went to the polls.

Prussians will Intervene.

LONDON, April 18—A *Times* special from Paris says it is stated that Prussia will intervene should the commune be victorious.

The Prussians have advanced to Andervilliers.

VERSAILLES, April 17—Eighteen batteries are established at Besancon against the insurgent batteries at Asnieres and at Clychy.

There confirms the capture of Chateau Besancon.

Reports from the Insurgents.

PARIS April 18—Clusseret reports the night quiet. Dombrowski has advanced surely. Fort Valerien is considerably breached. Everything is satisfactory.

Several Versailles batteries are dismantled and attacks repulsed with small loss. The morale is excellent.

Tullier commends the fleet virtually and certain northern and eastern railroads. The commune discusses the payment of debts due, and to be effected within three years commencing in quarterly installments on the 15th of July.

McMahon's headquarters are at Fontenay.

Norway and Sweden.

CHRISTIANA April 18—Norway rejects the modification of the union with Sweden.

An Annexation Project.

LONDON April 18—It is reported that the Lutheran inhabitants of the province of Lavonia have petitioned the Russian Government to permit negotiation for the annexation of their province to Russia. The Czar ordered the signers of the petition to leave his dominions, on pain of the confiscation of their effects.

WASHINGTON CITY

The Ku-Klux Bill.

WASHINGTON, April 18—In the Senate Edmunds submitted the report from the Conference Committee on the Ku Klux bill.

The Reported Battle on the Texan Frontier a Hoax.

NEW YORK, April 18—A Washington special says the dispatches to the associated press regarding Indian hostilities in New Mexico and a collision between the troops from Fort Bayard and the Mexican soldiers, is now entirely discredited.

More Rumors of Cabinet Changes.

The *Herald's* Washington correspondent telegraphs last night that a rumor of immediate changes in the Cabinet, has been again current during the day in the highest official circles and the understanding is that the President desires to fill the position occupied by Boutwell with some prominent politician, who is favorably known to the country, both as a financier and statesman. The party named in this connection is Sumner. The presence of John A Griswold, and his interview with the President as well as with Secretary Boutwell, lead some to believe that he is the President's choice for the position.

WASHINGTON April 18—There was a full Cabinet meeting to day. It is reported that several important appointments will be decided upon. Gen Benj B Sweet will be appointed Supervisor of Internal Revenue for Illinois. Two districts in Ohio and Indiana will be consolidated and a new appointment made. It is understood that Robert G Corwin will be appointed Supervisor in Ohio.

WASHINGTON TERRITORY

Dispatch from Olympia.

OLYMPIA, April 19—A large railroad meeting was held last night. The statement of the Secretary showed that nearly 3 000 acres of land besides valuable city property, had been donated to the N P railroad for the purpose of securing connection with the coal-new building from the Columbia river. Minute guns were fired during the evening and much enthusiasm was manifested.

PERSONAL NOTES

Ex Secretary Cox has formed a law partnership in Cincinnati with Gen. Burnet, his old partner, and Col Follet.

Louisa Muhlbach has just laid the one hundred and first volume of her novels before the reading public of Germany.

The effort in the West to raise money for a monument to Gen Wm Henry Harrison at North Bend, his old family residence, is likely to prove a failure.

Princess Salm Salm receives from the Archduchess Sophia, of Austria, an annual pension of 2,000 florins; and the pension will probably be increased.

Col Albert J Smith, who was chief Paymaster of the Southern and Western rebel armies and before the rebellion was Paymaster in the United States Army, died of typhoid fever on the 28th ult., in Nashville, Tennessee.

Indiana boasts of an ancient dwarf who lives in Decatur county is 49 inches high, 77 years old, weighs 38 pounds, and calls himself Peter Denham. He claims that 20 years ago he was five inches taller, and weighed ten pounds more than now.

A rumor comes from Bordeaux that Gambetta was recently challenged to mortal combat by Gen Cluseret and that the former declined on the ground that he could not meet on equal terms a military charlatan and an unprincipled adventurer.

A journalist with a statistical turn has found out that the London newspapers have contained in the last three years not less than 11½ obituaries of Dr Livingstone, the African explorer, any of which, he adds, is good enough for a man really dead.

Col. Henry B Forbes, an ex army officer says a Western letter writer, went to Cheyenne recently to lecture on the evils of intemperance; but the inhabitants, regarding the subject as a personal affront, rushed into the hall, extinguished the lights, and drove the Colonel out of town.

When Mr Burlingame visited Mr Sumner after his return from Canada, where he had challenged Brooks to fight him, their meeting according to a writer in the Chicago *Tribune* was very impressive. Sumner, placing a hand on each of Burlingame's shoulders, said "You did not intend to kill him, Anson!" Burlingame at first hesitated, but after a minute or two pushing his hands as though he had a gun replied "I intended to take the best aim I could at the broadest part of him his breast was until the gun was given, then—fire!" Mr. Sumner was greatly distressed at this confession. Tears sprang into both their eyes and Burlingame said "You forgot that I saw you lying bleeding and insensible on the Senate floor, and thought you were dead! Yes, I wanted to kill him and all his cowardly accomplices. They will have to be killed yet! We will have to meet them with guns some time, and the sooner we begin the better."

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA

From San Francisco.

SAN FRANCISCO April 19—The *Sacramento* brought no mails from the City of Mexico, either via Acapulco or Manzanillo.

Voisen Bix & Co, auctioneers have filed a petition of insolvency. Their liabilities are reported in the vicinity of $250,000 assets $ 0,000. Cause of failure losses on goods purchased east and sold here at less than cost, and bad debts.

Quant has been speaking and reading letters all day in the Fair trial. Cook will speak to morrow. Byrne will close Friday, and the case will go to the jury Friday night or Saturday.

Negotiations are pending for converting the entire valleys of San Andreas Canada del Raymundo San Mateo county into a grand reservoir over ten miles long, into which it is proposed to turn the waters of all the creeks on the ocean side of Sierra Moreno and as far south as Pescadero to provide sufficient water for use in San Francisco in the dryest season. This would cover the entire Crystal Springs property. A dam 1 000 yards long across the San Mateo creek valley between the springs and San Mateo would be sufficient.

SAN FRANCISCO, April 19—Machinists and scientific men who have examined the plan of the machine invented or perfected by Von Schmidt for boring through the Sierra Nevada mountains, are satisfied that it will accomplish the work with unexampled rapidity, and render the gigantic undertaking a matter of comparatively easy accomplishment.

Workmen have nearly completed the excavations for the foundation of the new city hall at Yerba Buena Plaza. They exhumed, among other things, the body of a pioneer, name unknown, buried in his ordinary business suit in the pockets of which they found four ace and a king full. His death it is conjectured resulted from his joking proclivities being unappreciated.

Rev Wm H. Hill of Sacramento, Deputy Grand Master I O O F will deliver an oration at a picnic of the Order on the 26th inst.

Suicide at Monterey.

MONTEREY April 19—Geo W Bird a resident of this place, and at one time County Clerk, committed suicide yesterday morning in jail, where he had been confined while laboring under an attack of *mania a potu*. His left arm and leg were nearly severed with a pocket knife. He also inflicted other wounds on his body with the same instrument. He was 47, and leaves a wife and five children.

Railroad Accident and Death at Oakland.

OAKLAND April 19—As to day's 4 P M San Francisco train was starting from Broadway station for Brooklyn Mrs Jacobs, wife of Capt Jacobs, of Ocean View, was accidentally thrown under the moving cars, and before she was rescued six car wheels had passed over her leg crushing it so completely that she died in an hour.

Accident at Stockton.

STOCKTON, April 19—A little son of R B Lane, proprietor of Lane's flouring mill while playing around the barley mill about 6 P M to day, had his right arm caught in the machinery, tearing it in a frightful manner. Amputation was found necessary. The little fellow is but four years of age.

Successful Mining Operations.

MARYSVILLE April 18—The Blue Point Gravel Mining Company of Smartsville have just finished their first clean up of their bon rock tunnel which they have been four years constructing at a cost of $146 000. They cleaned up this morning over $40 000 worth of dust, and have declared a dividend of $80 per share. The Pittsburg and Yuba River Mining Company, near Smartsville also cleaned up $30,000 a few days since.

Rain in Southern California.

LOS ANGELES, April 19—Reports from different parts of the country indicate that the last rain fall was general and of great benefit.

Indian Depredations.

SAN DIEGO, April 19—The Tucson (Arizona) *Citizen* of April 14th has the following. Yesterday Indians attacked San Pedro settlement near Camp Grant, and killed Alexander McKinney, H C Long, Owen Chapin and L Ulster wounded Nicholas Lopez, and stole a lot of stock, arms and ammunition.

BY STATE TELEGRAPH

Deplorable Affair in Benton County.

CORVALLIS April 19—A young man named White a student of Philomath College, got into a fight yesterday at Philomath with Frank Mason when Mr Mason, an older brother, threw a piece of iron, striking White on the head, inflicting a wound from which he died about 8 o'clock last evening.

CURRENT NOTES

Senator Sumner has the satisfaction of knowing that his speech is highly pleasing to the Ku Klux Democracy. So much so that Frank Blair has ordered 200 000 for circulation.

A Maine woman, whose husband was in debt to a liquor dealer in Portland went to the saloon of the latter, called for, drank, paid for a glass of liquor, and then demanded the release of her husband. The dealer fearing exposure and prosecution in case he refused, caused the man to be released.

The war between France and Germany has led to very unpleasant relations between the French and German officers in the army of the Viceroy of Egypt. So many challenges to fight duels were the consequence that the Khedive had to publicly interfere. He restored order and transferred among his officers by summarily dismissing the most quarrelsome individuals.

A Washington dispatch says "Senator Carpenter, of Wisconsin, is preparing an elaborate speech in reply to Mr Sumner in which he will attempt to vindicate the President against the aspersions of the latter and to make a general defence of the administration against all its enemies. It is understood that the speech will embody an argument in favor of the annexation of the Dominican republic.

In a lecture in Chicago the other evening George Francis Train being asked to give a definition of egotism, replied "He liked himself better than he liked any other body in the world. Egotism is power. Power is the thing—power and check. Humanity is a dead failure. Those who are afraid of the world and its criticism call others egotists. There is a natural law which regulates man. Under this law, all men reach their level. The big logs always get over the small ones in the mill pond. In a wagon load of potatoes traveling over a rough road, the small ones always go to the bottom."

The Commissioner of Internal Revenue has issued instructions to his subordinates which will greatly simplify their labors. These orders are substantially to the effect that the detailed sources of income need not be stated by the person making the return but only the gross taxable income for the year after deducting $2 000 exempt by law; national, State, county and municipal taxes paid within the year losses in trade, etc; amount paid for rent or hired labor to cultivate land or to conduct any other business from which income is derived, amount actually paid during the year for rent of homestead; amount paid for usual or ordinary repairs excluding payments for new buildings permanent improvements or betterments; interest actually paid within the year not deducted in any previous income return and other items stated in the schedule furnished to tax payers. All the items going to make up the total of deductions may be omitted from the return. Those persons whose income during the year did not exceed $2,000 are not required to make return but will be expected to send back their blanks with the single statement that no tax is due the Government. This need not be verified under oath.

OREGON

The *States* man says that the Salem mills, since last fall have purchased 220,000 bushels of wheat most of which has been made into flour.

The will of the late Stephen T Church has been admitted to probate. The estate is valued at about $75 000 and is left to Mrs Church and her three children.

We learn from the Monmouth *Messenger* that Rev L. L Roland will return from the Dalles to resume the charge of the Christian Church at Salem, on the fourth Sunday of this month.

Rival Northern Railways

In the Canadian Parliament they have been talking about our Northern Pacific Railway From one of the debaters we have the spacular deliverance hat the 'Northern Pacific Company, who would have nearly a thousand miles of desert to run through would never (seeing Canada is determined to push her road through to the Pacific ocean) go on with their work They might extend it to Red river but it would never be carried further west, in view of the superior prospects of the Canadian Pacific Railway

From these statements we can almost imagine that the average Canadian legislator can surpass the Yankee in what is called spread-eagle 'ornory We shall be prepared to hear from the next speaker that the Dominion of Canada excels all other countries in the extent and variety of its resources, in the salubrity of its climate in the valor of its men, in the beauty of its women and in the incomparable freedom and glory of its political institutions

All this, however, will not build a railway on British soil to the Pacific ocean Nor will the statement that our Northern Pacific Company have one thousand miles of desert to traverse help the Canadian railway It is somewhat singular that nobody in the United States has discovered that vast desert Perhaps the Northern Pacific Company would do well to send an agent to Canada to study the geography of their route from a Dominion standpoint But if there is such an immense obstacle to meet on our Northern route what of the obstacles on the Canadian route, which lies still further to the north and through a much colder and more mountainous region?

It would, perhaps, be an excellent thing for members of the Canadian Parliament to procure and study an account of an attempted exploration by two of their countrymen, Lord Milton and Dr Cheadle, of the country between the Red river settlements and the Pacific ocean The exploration was made several years ago with a view to ascertain whether a practicable route for a railroad exists from Ottawa, the seat of the present Dominion Parliament, to the western confines of the British American Possessions It took the party two years to get through Though they set out to explore a track for a Pacific Railroad, wholly on British soil they wisely avoided the difficulties of the first portion of the route, by passing over the ordinary lines of travel to Chicago, La Crosse, St. Paul, &c, and thence to Georgetown in Minnesota From the point last named they proceeded down Red river by steamboat as far as Fort Garry There they bought horses, armed guides, and pushed forward into the Saskatchewan country They passed the winter at Fort Carlton In the spring they resumed their trip, and after undergoing the greatest possible hardships, succeeded in getting through to New Westminster the following autumn

In this report the travellers stated that the mountains are lofty, and of passes there are few or none During a considerable part of the year snow twenty feet in depth lies on the mountains Prof. Rind, one of the party declared that the road could be built but would probably cost one hundred million pounds sterling and take thirty years' labor They were of opinion that for a considerable part of the way the northern route is unproductive country was south of the Canadian line between the United States and the British Provinces

Any member who reads the recent speech in the Dominion Parliament should procure this book written by his countrymen, and peruse it An extended account of the exploration was given in *Harper's Magazine* for 1866 Mushas is said about a Canadian Pacific railway we are not yet prepared to believe that it will be completed during the present century

The "Herald" Misrepresents

The *Herald* will have it that President Grant has 'backed down from his position on the San Domingo question and it publishes a long article, full of coarseness and vulgarity in which an attempt is made to show that his recent message does not accord with his previous action The last sentence the *Herald's* unseemly diatribe reads thus President Grant went for this San Domingo annexation scheme as bold as a lion, and runs off from the field as meek as an ass' The elegant sentiment will pass as a fair sample of the whole article

Of course that paper has not had the fairness and honesty to print the message which criticising It does not afford its readers opportunity to judge from original documents the statements of this affair, or of the state the question Such a course would serve its purposes, Its readers would never read the message that the opinions of the people in the whole matter are unchanged Indeed says he, "they are confirmed in the opinion that the interests of our country and of San Domingo will be promoted by the annexation of that island"

This way of putting it, so far from being a sign of 'backing down' on the part of its author, is with the documents accompanying it, a triumphant answer to all the calumnies that had been uttered and put in circulation against it It is a complete vindication of his course in the whole affair Charges and insinuations, to the effect that he was in copartnership with a gang of unscrupulous speculators, were brought forward against him when the treaty was rejected by the Senate last winter. The mere rejection of the treaty, had it been unaccompanied with these innuendoes and charges affecting his personal and official integrity, would not have disturbed him, and he would have been willing to let the whole matter drop But under the circumstances he felt that an investigation was demanded Because he urged that, he was accused of bringing to bear an undue pressure in favor of annexation, and the envenomed tongue of slander at once pretended to find a reason for this in the alleged fact that he was at the head of a band of corruptionists who had a personal interest in the acquisition This made an investigation still more necessary, hence the President's persistence. Now that the investigation has been had and he has been cleared of all the unfounded charges, insinuations and accusations that were brought against him he is content to turn the whole matter over to Congress and to the people He has gained his point, his object is accomplished This is the easy, natural and truthful explanation of his action When the *Herald* asserts that he has 'backed down' it shows either that it does not desire to make a correct statement, or that it is totally wanting in capacity to comprehend the real questions involved in the affair

From the evident disappointment and testiness of that paper over this matter, this fact is plain, viz It had hoped that this San Domingo question would create an irremediable breach in the Republican party, and thus be the means of elevating the Democratic party to power in 1872 It fondly believed that a great and wide-spread quarrel over it would spring up in the Republican ranks, and that both the President and his assailants would pursue such a course as would intensify the bitterness and add to the exasperation on both sides The Democratic party like the Old Anarch in Milton's fable would look with delight upon the scene, prepared to assist, whenever a chance offered, in making the confusion worse confounded and exclaiming during the progress of the strife —'Havoc and spoil and ruin be our gain But the action of the President has dashed all these hopes His complete vindication, with the prudence and moderation of his utterances, leaves no possible ground for the continuance of the assault upon him within the Republican party Hence the *Herald* and the whole pack of Copperheads who thought they saw in an impending division of the Republican party a chance to revive the theories of the rebellion are very much chagrined and disappointed

Before the appearance of the report of the San Domingo Commissioners there was a rumor at Washington that Dr Howe, one of the Commissioners and an especial friend of Mr Sumner, was yielding to the pressure of the latter on the subject of annexation There was, however no truth whatever in the rumor On the contrary Dr Howe said to his distinguished friend "Mr Sumner, every time you make a lunge at the President you run your sword through the Dominican people.' Dr Howe was acquainted with facts which he had seen and studied Mr Sumner only had a theory, without special knowledge. He was riding a hobby, as was usual with him

In consequence of the reduction of the public debt by so large a sum under the present administration, a saving of upwards of *one million of dollars per month*, in *gold*, is affected in the matter of interest In other words, the interest on that portion of the debt which has been paid since Gen Grant became President, would amount to more than one million dollars per month This is saved permanently to the country Over twelve million dollars a year in gold, saved in the item of interest, and the good work still goes on! So much for having an honest, efficient prudent administration

The re-appearance of Jeff Davis in politics has excited much comment It was the influence of the New Hampshire election that brought him out and gave him courage to proclaim not only his unchanged rebel feelings, but his sanguine hopes for a resuscitation of the "Lost Cause." If three or four more of the Northern States should go Democratic no doubt the President of the late Confederate States would take the stump in the North for the principles of the Democratic party, which he says got a set back, but only a temporary one by the unholy abolition war

One of the litigant organs of this State is overjoyed at the discovery that the Chinese are not destined to overrun us, and attributes the great and welcome fact to the election of Gov. Grover! We have nothing to say in reply to this, for what would it avail to bray a fool in a mortar? Let us follow Solomon's advice and save trouble.

COUNCIL PROCEEDINGS.

REGULAR MEETING, APRIL 19, 1871.

Present, his Honor, the Mayor and Councilmen Breck, Congle, Cree, Drake, Hallock and Hill.

MESSAGE FROM THE MAYOR.

A message was received from the Mayor, returning without his approval, the ordinance to amend ordinance No. 179, to impose and regulate licenses, etc. [His objection was on account of an important omission.]

The question being taken, "Shall the ordinance pass notwithstanding the veto of the Mayor?" the ordinance was lost—yeas, none; nays, all present.

STREET RAILROAD.

A communication was received from Levi Estes, submitting a proposition to construct, equip and maintain street railroads. Mr. Estes proposes to build and complete a street railroad by 1872, commencing at the intersection of North First and D, and to run upon both those streets as far as they may be improved; to complete in 1873, commencing at intersection of North Third and B, and running upon both those streets as far as they may be improved; to complete in 1874, commencing at intersection of Washington and Fifth, and running upon both those streets as far as they may be improved; to build upon other streets in similar manner as may be required by business or travel, etc., and to maintain and keep in repair such street railroads. The communication was referred to the Committee on Streets and Public Property.

PETITIONS FOR USE OF STREETS.

Petitions were received from the following persons for the use of streets for building purposes or for removing buildings: F. C. Scholl, W. P. Burke, Chas. Schumaker, B. Golden, Wm. Cree, B. P. Cardwell, J. B. Garrison, S. M. Lyon, W. H. Brackett. The prayers of the petitioners were all granted.

REDUCTION OF ASSESSMENTS.

Petitions were received from the following persons for reduction of their assessments, or rebate of taxes paid: J. S. Keller, ——; D. D. Bunnell, $600; W. A. Buchanan, $3,000; E. D. Hutchinson, ——; T. B. Trevitt, rebate of $10 62; E. Quackenbush, rebate of taxes on $3,000; Mrs. L. M. Meade, reduction of assessment $11,000; Daniel Barnum, for return of a small amount of money received by city on sale of property for taxes, in excess of charges. The petitions were all referred to the Committee on Ways and Means.

REMONSTRANCE.

A remonstrance against the opening and widening of West Park street, was received from Geo. Woodward, E. Semple and others—referred to the Committee on Streets and Public Property.

A "RESPECTFUL DEMAND."

The following communication was received from T. Patterson & Co.:

PORTLAND, Or., April 19, 1871.

To the Auditor and Clerk and the Common Council of the City of Portland, Oregon: You are hereby respectfully notified that the *Daily Oregon Herald*, of which the undersigned are publishers and proprietors, has been designated and appointed and confirmed as the official organ of the county of Multnomah, under an act of the Legislature of Oregon, approved October 24th, 1870, and entitled "An Act to Protect Litigants."

Having on our part complied with all the conditions of said law, and being ready with all necessary materials and facilities to perform the work required of us by statute, we respectfully demand of you (the Auditor and Clerk and the Common Council, aforesaid) that all legal and judicial advertisements of whatsoever nature and extent that are "*authorized or required*" to be published by your authority, or the authority of the Mayor of the city of Portland, shall be published in the *Daily Oregon Herald*, as aforesaid. Very respectfully, T. PATTERSON & CO.,

Publishers and proprietors of the *Daily Oregon Herald*.

Mr. Hallock moved that the consideration of the communication be indefinitely postponed.

Mr. Hill thought this not the proper way to dispose of the matter.

Mr. Hallock said the communication states what is false and calculated to deceive. The *Daily Herald* has not been designated as litigant organ for Multnomah county.

Mr. Drake believed that the communication ought not to be treated with the disrespect of indefinite postponement. He did not think the claim of T. Patterson & Co. for the city printing was a valid one, but he would give their letter due consideration.

Mr. Breck thought the demand an insult to the Council—an attempt to blackmail the city, and he agreed with Mr. Hallock, that it should be summarily disposed of.

Mr. Hill said he thought the litigant not levied black mail on the whole State, but it is law that we are bound to obey.

Mr. Hallock denied the possibility of the right of the *Herald* proprietors to sue and recover. The proclamation of the Governor designates the *Weekly Herald* as litigant organ for the *county* of Multnomah and not for the *city* of Portland. The Council might publish in whatever paper, any or all of them, they might choose.

Mr. Hallock's motion to indefinitely postpone the consideration of the letter was agreed to.

COMMITTEE REPORTS.

From the Committee of Ways and Means, a report of their proceedings in the matter of the sale of city bonds—in substance that they had sold the bonds to the full amount of $50,500, to Ladd & Tilton, agents, at 1 57-100 per annum. Report ordered placed on file.

From the Committee on Streets and Public Property, the ordinance to provide for fencing the public park—with an amendment and favorable recommendation.

From the same committee, a substitute for the ordinance to provide for the improvement of Washington street from East Park to B street.

REPORTS OF OFFICERS.

From the City Treasurer—returning the tax roll of 1871, with amounts collected and delinquent. Total amount collected, $41,266 83; amount delinquent, $10,272 77. The report was ordered placed on file.

The Chief Engineer reported two hydrants as in leaky condition, and that No. 4's engine needs suction pipe. Referred to Committee on Fire and Water.

CLAIMS AGAINST THE CITY.

The following bills were ordered paid: George H. Himes, printing blanks, $6 50; Oregon *Bulletin*, advertising, $2; E. J. Northrup, bill of material, rope, tackle, etc., $54 69; A. G. Walling, printing, $15; C. H. Myers, material for cisterns, $12 41; P. D. & H. Co., $3; H. L. Pittock, advertising, $16 90; Mallon & Taylor, two bills for wood, $30; T. Patterson & Co., advertising, $4.

The bill of J. H. Lappeus, $22 00, for expenses in attempting to arrest a person charged with grand larceny, was referred to the Committee on Police Accounts.

BUSINESS LYING ON THE TABLE.

The bill of E. Milwain, $3 50, heretofore referred to a committee was taken up and referred to the Police Commissioners.

ORDINANCES.

An ordinance making an appropriation out of the general fund for the payment of guards—read first time.

An ordinance to impose and regulate licenses, was read first and second times and laid over.

The substitute reported by Committee on Streets and public property, for the ordinance to improve Washington street from East Park to B street, was adopted, read and laid over.

The substitute for the ordinance heretofore pending to provide for fencing the public park, was adopted, read a third time and passed.

An ordinance granting the right of way to the Oregon Central Railroad Company for a railroad through Fourth street, was read and referred, on motion of Mr. Hallock, to a special committee. The Mayor appointed Messrs. Hallock, Hill and Cree.

RESOLUTIONS.

The following resolutions were adopted:

Directing the Auditor to issue warrant to to the Chief of Police for the collection of delinquent taxes.

That the Council proposes to establish grades on Eleventh street.

The Council adjourned.

BUSINESS NOTICES.

DOLLAR STORE.—This institution is still having quite a run of business, and they do say that some fine bargains are obtained there.

BILLIARDS — CHAMPIONS COMING. — Messrs. Greene & Knott announce this morning that Dion and Rudolphe will commence their playing at the Skating Rink, on or about the 26th inst. Everybody, of course, will want to witness the skill of the great billiard champions whose fame has been spread wherever the game is known. Tickets will be had at the Cosmopolitan Saloon.

BOOTS AND SHOES GOING CHEAP.—If you want to know where, just drop in at Protzman, Gilliban & Co.'s store, corner First and Morrison. They pledge themselves to sell *at cost* for thirty days, and what they promise, they will perform.

QUINN, the indefatigable, has purchased Nice's fishery at Oak Point and is now enabled to supply the trade, hotels and restaurants, with fresh fish of every description cheaper than the cheapest. Call at his market, Washington street, between First and Second, south side.

LIVELY.—The number of men at work at the Railroad and Steamship wharf at North Portland, together with those at work at the Company's new office buildings, makes that part of town look very decidedly lively and like business. The transportation of freights received or dispatched by railroad—teams constantly crossing both ways—serves to increase the lively effect.

WALLAMET BRIDGE.—At a meeting Tuesday evening of a few persons interested in a bridge across the Wallamet, a committee was appointed to solicit subscriptions.

POSTPONEMENT OF SAILING.—The sailing of the steamship *Oriflamme* has been postponed till Saturday, the 22d inst.

NO MORE MERCURY FOR ME!—"Put them in the fire, my dear," was the advice of Mrs. Macarthy to her son, a bilious and dyspeptic youth who had just brought home *another* box of blue pills. "But what am I to take, then, mother?" said he. "Get a bottle of PLANTATION BITTERS," she replied. "I'll guarantee it does you good." He did so; and then another and another. With the third bottle all his unpleasant symptoms vanished. In a letter to a young friend he relates this anecdote; and winds up with "No more mercury for me!"

Be Guided by what you Know.

There is an old proverb which says, "Experience is the safest guide." To this guide the sick and ailing naturally turn when casting about for the means of relief. They inquire what a medicine has done for others, before they adopt it themselves. Of all the remedies and preventives in use, Hostetter's Stomach Bitters meets the test most triumphantly, and hence its immense popularity and vast sales. The sufferer from indigestion is sure to find some one among his friends who has been cured of that ailment by the famous vegetable stomachic. The victim of fever and ague, liver complaint, constipation, nervous prostration or general debility, has only to make inquiry in the neighborhood where he resides in order to discover what this standard restorative has effected in cases similar to his own. In the published testimony to its merits he will find a volume of proofs of its sanitary properties, which it is impossible for his common sense to resist. He tries it, and the effect it produces on his system adds another to the host of witnesses in its favor. Thus, its reputation, founded on facts not assertions, continually grows and spreads. Charlatans and impostors, some of them mere local tricksters, and others who take a somewhat wider range, attempt to thrust into the hands and down the throats of invalids, their haphazard concoctions, as substitutes for the tonic which for so many years has been a medicinal staple throughout the United States, Spanish America, Canada and the West Indies, but only succeed to a very limited extent. In this reasoning age, the people, having ascertained what is really deserving of their confidence, decline "running after strange gods."

Massacre of the French Generals

HOW EACH OF THEM SAW HIS FELLOW MEN MASSACRED IN COLD BLOOD

Translated from the Paris Lib rte

The following vivid description of the execution of General Thomas and General Lecomte has been furnished by an eye witness He stat General Thomas having heard that one of his former aids-de camp had been seized by the insurgents instantly started to try and obtain his release and at 5 o clock in the evening bent on this errand, he arrived at the Place Pigalle He was dressed in citizen s clothes, with gray pantaloons, a brown overcoat and a high silk hat

One of the insurgents who happened to be there instantly recognized him and came straight up to him said, Are you not General Clement Thomas?

No replied he to his ruffianly looking interlocutor "I am making no mistak I am positive said the insurgent You are easily recognized by your beard

Well even if it were me, replied the ex General with a look of determination have I not always done my duty?

You are no more nor less than a miserable coward and traitor said the insurgent seizing the old gentleman by the throat

Within a few minutes a mob had gathered around the two men, and the General was dragged before the Central Republican Committee, which was in session at No 6 Rue des Rosiers where within a few moments he was condemned to death, and at 6 o clock he was led into the garden at the back of the house by a file of National Guards The old warrior showed no sign of fear, and walked boldly forward to meet his fate Arriving at the end of the garden he took off his hat, which he retained in his hand and turning with his face to the executioners looked at them with an undismayed expression Instead of killing the old man according to military usage by simultaneous firing a running fire was kept up and as each ball entered the body of the victim a shudder convulsed his frame but he stood erect as a statue until a ball—the fifteenth fired—was lodged either by intention or accident, in his forehead near his right eye, upon receiving which he fell dead. No sooner had he fallen than General Lecompte was brought into the garden his face was of an ashy paleness, and he had crossed his arms upon his chest In feeble accents he protested against his cold blooded assassination The men who ushered him in to the garden were soldiers of the 88th Infantry who shouted, It s his turn now' 'twas he who gave us the order to fire upon the people' Half a moment later Gen Lecompte was a corpse

British Columbia and Canada

The Boston *Advertiser* has an article on the annexation of British Columbia to Canada, from which we take the subjoined well considered remarks

No one can be so blind as not to see that this action is of direct concern to us The Pacific province is much more closely allied to Oregon than it can ever be with Canada and the tendency toward the United States will be increased rather than diminished during the ten years which are assigned for the construction of the Pacific Railroad The influence upon Canada itself can hardly be less decided. Instead of a bond of union, the railroad debt will be rather a chain such as galley slaves wear to load them down The government enters upon the task with a light heart but a very skilful kind of financial legerdemain will be necessary to secure the projected road without doubling the present expenditure of the Dominion government and then Canada has lost the only advantage she now possesses over us, of light taxation The formation of a vast territorial empire to the north of us is the most delusive of projects In point of fact there is even now no natural coherence between the several parts of the Dominion. A long and circuitous intercolonial railway is relied upon to unite the maritime provinces with Upper Canada, but the relations both of the province of New Brunswick and Nova Scotia, and of Quebec and Ontario, are more with New England and New York than with each other, and the railroad will have little power in neutralizing it Winnipeg has nothing whatever in common with its nearest province of Ontario, and British Columbia has not a tenth part the interest in the Dominion that California had in us in the earliest period of gold mining The attempt to make a great country to rival the United States is one which excites no opposition from us and in her a cause for satisfaction, as rendering more certain the ultimate absorption of these northern provinces in the United States The geographical form of the Dominion is against its unity and permanence as a separate power already and every fresh acquisition adds still further to its shapelessness and incoherency.

Our Naval Establishment

A New York paper of the 4th contains the annexed intelligence

The new Navy Register for 1871 has just been issued from the Navy Department having been compiled with much care by Dr W S McNairy, in the Register s office of the department It contains the names of the admiral and vice admiral twelve admirals 25 commodores 50 captains 89 commanders 178 lieutenant commanders 141 lieutenants 101 masters 69 ensigns, 69 midshipmen 80 surgeons 32 passed assistant surgeons, 38 assistant surgeons, 80 paymasters, 22 passed assistant paymasters, 29 assistant paymasters 36 chief engineers 98 first assistant engineers 93 second assistant engineers, 25 chaplains nine professors of mathematics six naval constructors seven assistant naval constructors and six civil engineers. There are 306 warrant officers, of whom 46 are boatswains, 57 gunners 39 carpenters, 34 sail makers and 130 mates The retired and reserved list comprises twenty rear admirals, 52 commodores, 33 captains, fourteen commanders six lieutenant commanders, two lieutenants six masters two ensigns two chief engineers assistant engineers ten second assistant engineers 12 surgeons, two past assistant surgeons, one assistant surgeon, thirteen assistant paymasters, one assistant paymaster, [illegible] chaplains, three professors, nine carpenters, four gunners, one sailmaker, three pilotmakers and one master The [illegible] Corps is commanded by 102 officers of nine on the retired list [illegible] officers of various grades have resigned during the year, 47 have died and ten were dismissed

The volunteer navy has thirteen officers now in active service Of this branch eleven were mustered out during the past year eight were honorably discharged, eighteen resigned, one deserted and one died.

There are five fleets, and some of these are divided into two squadrons the whole employing forty vessels as follows —North Atlantic ten South Atlantic three European eight Pacific, twelve, and Asiatic, seven There are four vessels on special service one preparing for the South Atlantic fleet and three are on the Darien surveying expedition The entire navy consist of 99 wooden vessels, 21 iron clads and 29 tugs, most of which are laid up at the various navy yards

GEN GRANT & MAN OF GRIT —A peculiar kind of grit not falling under any of the special expressions I have noted yet partaking in some degree of all, is illustrated in the character of Gen Grant Without an atom of pretension or rhetoric, with none of the external signs of energy and intrepidity, making no parade of its immovable purpose iron nerve, and silent, penetrating intelligence God has put into him, his tranquil greatness is hidden from superficial scrutiny behind a cigar, as President Lincoln s was behind a joke. When anybody tried to coax, cajole, overawe, browbeat or deceive Lincoln the President nursed his leg, and was reminded of a story, when anybody tries the same game with Grant, the General listens and smokes If you try to wheedle out of him his plans for a campaign he stolidly smokes, if you call him an imbecile, a blunderer, he blandly lights another cigar if you praise him as the greatest General living he placidly returns the puff from his Regalia and if you tell him he should run for the Presidency it does not disturb the equanimity with which he inhales the unsubstantial vapor which typifies the politician s promises While you are wondering what kind of man this creature without a tongue is, you are suddenly electrified with the news of some splendid victory

[illegible] that behind the cigar, and behind the [illegible] discharge of all bell-tale expression is [illegible] train to plan and the strongest heart to lose among the Generals of the Republic [illegible] conditions —*N Y Tribune*

FOREIGN NOTES

A recent sensational piece of news of one of the brood of Paris papers of the *Vengeur* stamp was headed 'Assassination of the Emperor of Russia' Six hundred thousand men marching to Constantinople, &c

A letter from Nice states that an old American sailor, belonging to the United States vessel Franklin was stabbed and killed at that place and afterwards robbed by three Italian ex [illegible] of Garibaldi s command They have been arrested and one will probably be executed

All the captured French eagles, arms flags &c are to be restructed into an enormous trophy which is to add in doing honor to the grand entry of the Prussians into Berlin They are also about to erect a monument in that city in commemoration of the war which will be finished sometime next year

The Prussians have transported by rail to their own country the steam gunboats captured from the French at Orleans A special train was required for each The smallest of them will be taken to Potsdam, where it will serve the Crown Prince as a pleasure boat for bathings on the lakes.

The Paris correspondent of the Manchester *Guardian* repeats the story that Bismarck in sick of his bargain in Alsace and Lorraine and that owing to the determined hostility of the people, and the complaints of German manufacturers, who complain of competition with the Mulhouse spinning and weaving factories he would be willing to surrender these wrested provinces to France for a consideration of one milliard and a half of francs

FINE POSITIONS.—Married women who amuse themselves with the marked attentions of other gentlemen than their husbands are either very thoughtless or reckless as to consequences All men who flirt with married ladies would not wilfully compromise them, but so many would, that a woman cannot judge who will not!

She may think she is acute in her judgment of character, and that she knows a gentleman when she sees one, but the very man she may deem the soul of honor and sense may be a conceited fellow, who either misinterprets her intentions altogether, or is willing to insinuate a falsehood into the minds of men for the sake of appearing large and seeming to have made a conquest

Plenty of men will do this if women flatter them by encouraging their attentions, when they really know they only serve as a passing amusement for idle wives

Dangerous amusement

Pride ought to make a woman spurn such attentions which are really an insult to her and to her husband. Some of the "innocent deceptions practiced have almost cheapening effect upon the poor husbands They may toil from day to day to surround their wives with comforts, luxuries and pleasures, and during their absence in business hours the conceited coxcombs and idlers, who bask in the smiles of the giddy wives, will call them stupid old fellows, who cannot entertain or understand women, or say, 'perhaps the sly old foxes have attractions else where"

The numbers of women who mean to do no real wrong, and are honest at heart, who yet place themselves in false positions, are legion, and yet they are generally better than those who slander them

For the most cruel gossip and criticisms come from the falsest hearts—from those who do a thousand times worse when opportunities occur And their envious venom is all the more poisonous from its unclean source

However, the thoughtlessness which opens the way for slander is none the less culpable

In fact, a wife cannot be too careful of her own and her husband's good name and if he is not true, so long as she accepts his protection she is not excusable for following his bad example, for 'two wrongs do not make a right "—*Ism Orion*

One Captain Rogers an English officer in India, has invented a tiger-trap which is sure to attract the beast within its clutches, and equally certain to kill him. As a temptation to the animal, a dead woman is placed in the trap There are no divorce courts in India, a pleasing arrangement of the statutes allowing aggrieved husbands to furnish Captain Rogers with any quantity of bait

Cheap water Pipe.

"THE ASPHALTUM PRESSURE PIPE COMPANY," of San Francisco having purchased of the patentees the sole right to manufacture on this coast are now making on article at their works, at Alameda Point that will supply the general want of a cheap and durable water pipe The invention originated in France where these pipes are extensively used, as well as in Germany in fact, all over Europe almost entirely superseding for all ordinary purposes the use of iron It is now receiving, having been in use twenty years

Its Durability.

Being impervious alike and insensible to atmospheric influences chemical properties of the earth it never changes nor is it subject to quality much more durable than iron which corrodes and in time leaks

It is a Non-Conductor

And will not freeze except as a remarkably low temperature, and even then its expansive power is greater than that of frozen water In warm weather it acts as a cooler for water passing through it

Neutrality to Acids and Alkalis.

This pipe is not affected by chalk and alkalis nor is it affected by saltwash currents—consequently is invaluable in conducting telegraph wires under ground through tunnels and under bridges

Elasticity.

The elasticity of this pipe prevents its bursting from outward shocks or concussions The interior of the pipe being glazed are as smooth as porcelain and consequently are never clogged by adhering sediment

Lightness

The light weight of these pipes to iron is as one to five which not only facilitates handling but reduces the cost of transportation

Laying the Pipe

Is a simple matter—can be laid by any laboring man of ordinary intelligence but the Company if required will always furnish a competent person free of expense to oversee the proper laying of the pipe Contracts taken for any required length of pipe from water or mining companies and warranted to stand according to contract

Pipe Under Pressure

Can be seen at the office of the Company We are the only parties manufacturing this pipe on the Pacific Coast under this patent All other offered is spurious and an infringement

Cheapness.

The cost will on land including connections, is about one quarter that of iron and one half that of lead

We manufacture this pipe in lengths of twelve feet and ship everywhere by all sorts of conveyance—no expert workmen required We manufacture any size from [illegible] to [illegible] inches

Pressure.

We manufacture according to pressure required from 1 to 100 pounds to the inch and *guarantee* it to stand the pressure

Prices

1 inch bore	15 per foot
1½ inch	20 " "
2 inch	30 " "
3 inch	40 " "
4 inch	50 " "
5 inch	60 " "
6 inch	80 " "
8 inch	$1 00 " "
10 inch	$1 25 " "
12 inch	$1 50 " "

For pipe capable of resisting 1 pound pressure to the inch add 10 cents per foot

The pipe being made of a combination of paper cannvas and asphaltum it can be cut with a knife and will *bend to a circle of four feet* in length, the *smallest* pipe is one inch
